PROJECTS

Portfolio — Astro, React, Tailwind

<https://jacobhandelman.com/>

My Portfolio which showcases various projects that I have worked on.

Anti Blog — React, Tailwind, PHP, MySQL

https://github.com/Dezzep/blog_crud_app

A Full-Stack Blogging Platform, where users can create an account, log in, author, edit and delete their own blog posts. Users can view all posts from all users. Additionally there is a dynamic search and highlight feature available on desktop devices.

Web Store — React, React-Router, Tailwind

<https://github.com/Dezzep/shopping-cart>

Browse a fully responsive mock clothing e-store. Add and remove clothes from your shopping cart. View the total price of all your items. All of the clothing that you see on this store is retrieved from a fake store API.

EXPERIENCE

Proscap, Pierrefonds, QC — Carpenter

April 2019 - June 2022

Improved processes for deck building projects by effectively interpreting blueprints, schematics, and project specifications.

Demonstrated technical proficiency with hands and power tools, executing precises joinery and high-quality finish work through proper anchoring and bracing.

Displayed strong problem-solving skills in adapting to unique challenges in each deck building project.

St-Viateur Bagel, Dollard-Des-Ormeaux — Baker

March 2016 - March 2019

Maintained accurate records of inventory and production levels through data entry and analysis.

Improved operational efficiency in the kitchen by producing bagel dough, rolling bagels and making them quickly and accurately.

SKILLS

Tech Stack:

HTML5, CSS3, SCSS,
Tailwind, JavaScript, React,
React-Router, Redux, Astro,
Node.js, Express.js, PHP,
MySQL, NoSQL, Jest, Webpack

Dev Ops:

Docker, Git, Ubuntu, MacOS,
Windows, Digital Ocean

LANGUAGES

English (Fluent)
French(Intermediate)

Demonstrated strong customer service skills through daily transactions with customers.

Conform Action Data Systems, Dorval — Data Clerk

June 2014 - February 2016

Contributed to data quality and accuracy by processing Material Safety Data Sheets (MSDS) and ensuring their timeliness and compliance with legal requirements.

Improved data organization and retrieval by scanning and saving documents in a centralized database.

Demonstrated attention to detail and problem-solving skills by identifying and correcting data entry errors, preventing duplication and degradation.

EDUCATION

Vanier College, Saint-Laurent — AEC

Web & Database Programming - October 2022 - February 2023

Grade: A+

360-hour intensive training program designed to quickly integrate students into the job market. Focused on object-oriented programming, database design and creation, front-end web interface development, and full-stack web application integration.

University Of Helsinki, Finland — Certificate

Full Stack Open - June 2022 | Ongoing

Completed 6 modules on the “Full Stack Open” program, gaining expertise in full stack web development with a focus on web design, server-side programming with Node.js and Express, database management using MongoDB, and utilizing modern JavaScript libraries like React, Redux, and React Router, along with hands-on experience in testing using Jest and Cypress.

Dawson College, Montreal

Early Childhood Education - August 2016 - May 2018

Grade: A- | Acquired 24.66 out of 30 credits

Activities: Lacrosse, Chess Club
